

Membership discount for introducing new SLTC members

For any SLTC member introducing a new member, the following scheme is available:

- A discount applied to following year's SLTC membership fees.
- The discount will be calculated as 25% of the membership fees of each new member introduced.
- The maximum discount will not exceed the annual membership fees of the member making the introductions.
- The discount will be paid as a proportion of the subscription fees received from the new member (e.g. if the new member leaves after less than one year then the discount will be adjusted proportionately).
- The new member cannot have previously been a member of SLTC.
- The SLTC member entitled to the discount needs to be identified at the time the new member joins.

Any disputes to be determined by SLTC Committee

Terms and duration of the scheme subject to amendment by the Committee
